Re: Cherry Creek Waterworks District – Cherry Creek Road – Etone Road to Horne Lake Road  
Watermain Replacement

Dear Property Owners and Residents:

IWC Excavation Ltd. will be undertaking the watermain upgrade along Cherry Creek Road from Etone Road to Horne Lake Road. Work will commence on May 15, 2019 and is expected to be complete by September 1, 2019.

During construction hours (Monday to Friday 7:00 am – 5:00 pm and possibly Saturdays 7:00 am – 5:00 pm) traffic flow may be reduced to single lane alternating traffic at the construction zone speed of 30 km/hour. Please allow yourself extra time in your daily routine considering the delays you may encounter.

While our crews are actively working on public roadways there will be traffic control personnel and/or signage present to assist your safe passage through the site. Please cooperate with traffic control personnel and obey all posted signage as it is crucial to the safety of the construction crews, yourself and your fellow motorists and pedestrians.

We expect that there will be intermittent interruptions to water services as we work to upgrade the watermain. IWC Excavation will notify all effected residents of any disruptions to water services well in advance so that preparations may be made.

We thank you in advance for your patience and co-operation. If you have any questions or concerns, please do not hesitate to contact Kevin O'Neil at 250-816-0933.

Thank you,

IWC Excavation Ltd.
